DEVELOPMENT EXPERIENCE

- Hands-on experience building large-scale web applications, primarily for clients in the streaming-media industry
- Leading and mentoring remote teams across multiple countries
- Responsible for interviewing, hiring, and training new developers
- Successfully balanced high quality standards with pragmatism, meeting deadlines, and "making it work"
- Responsible for project estimation, planning, client communication
- Made architectural decisions & delivered production code for the following UI Centric clients:

SiriusXM, NBC, CBS, PIX System, NEP Group, Channel 5 UK, Jaguar - Land Rover, MLBAM (MLB, NHL, WWE), Pottermore (Harry Potter)

Primary technologies: React, TypeScript, Node.js, Angular 2+

- Implemented new features and maintained an enterprise web app used daily by billing and support Rackers
- Leading contributor in daily stand-ups, sprint planning, PR reviews, and retrospectives as part of an Agile team
- Recognized for attention to detail and communication skills
- Helped create the developer interview challenge

Primary technologies: AngularJS & Protractor automated testing

- Development team coordinator on bank-wide transition to a new credit card vendor – collaborated daily with executives and leaders from all departments of the company
- Introduced automated testing to the front-end development team

Primary technologies: Microsoft (C#, .NET, SQL)

ASSOCIATE DIRECTOR OF BANDS*Taft High School, Northside ISD*
